

## Internet Explorer 11 fix for "Object doesn't support property or method 'addEventListener'"

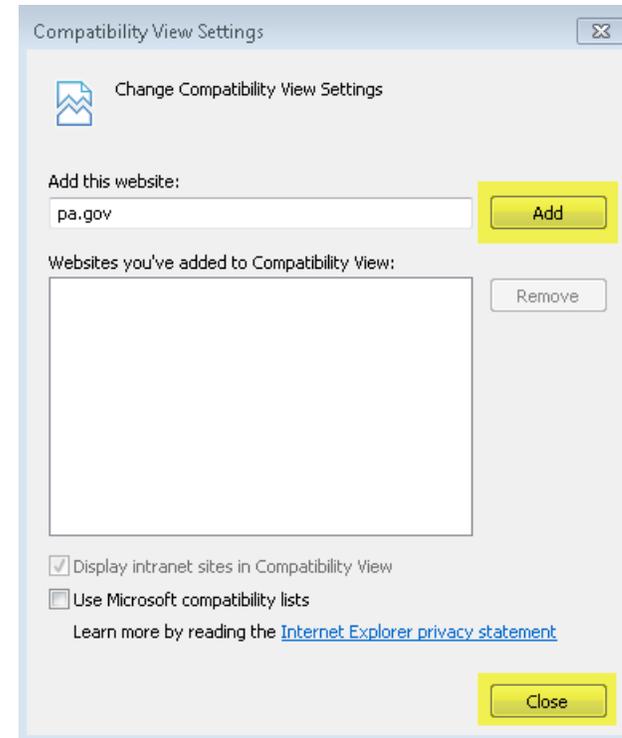

This is a Microsoft Internet Explorer 11 bug which prevents the application form from being opened. To fix this issue, please do the following steps. (Note: if you are still having a problem after completing these steps please send an email to [khinderliter@pa.gov](mailto:khinderliter@pa.gov) with a description of your issue.)

**Step 1** – After opening "PennDOT Competitive Transportation Funding" site click "Alt" on your keyboard.

**Step 2** – Click on the Internet Explorer "Tools" icon and select the "Compatibility View settings" option.

**Step 3** – The "Compatibility View Settings" popup will be displayed. Click "Add" for pa.gov website then click "Close".

**Step 4** – It is recommended that you restart your browser session by closing (All browser windows) and re-open your IE 11 Browser window, you should now be able to start your application with no issues.
